SIXSTRING

SixString entered the bay area music scene in early 2000. Their music integrates the classic rock and pop spirit of the 70s and 80s with a newer, warmer rock quality that has been drawing new audiences.

SixString treats its audience to a unique experience that combines powerful lead vocals, which are backed by lush harmonies and a variety of electric; acoustic guitars and keyboards, all supported by a driving rhythm section. On lead vocals is Bob Schrick, on guitars and back-up vocals is Paul Jewel, Dennis Fleming is on guitars, keyboards, and sax as well as back-up vocals, on bass is Craig Petit, and Scott Mitchell on drums. Each member is an accomplished musician and entertainer. SixString incorporates many divergent influences and styles into their music, smoothly jumping from classic rock to tender ballads—all while creating a rich rock sound that fills the dance floor.

SixString is a featured act at Crow's Nest in Santa Cruz, Mt. View a la Cart, Sunnyvale Art and Wine and many other events. SixString was in the quarter finals for the Best Bay Area Band in the KFOX Last Band Standing Contest in 2009.

Be sure to catch SixString; their live show and tight sound will definitely satisfy even the most discriminating musical appetite!
